EAVESDROPPING?

Perhaps-

But.

There are certain places - the ball 'park, the hockey game for instance; or street cars and buses where conversations become eloquent, sometimes forceful, but always semi-public.

These daily gatherings offer a vivid cross-section of the thoughts, ambitions, and ideals of an entire people; and it is only one more step to the questions, "Where are all these opinions created?" "What basic agency can be held responsible for the origination of so great a number of ideas?"

The answer lies in a great unconfined power in which the Canadian public places its faith; an institution in which ideas form an everchanging picture yet maintain a firm grip upon the imagination, the desires, and the buying thoughts of the entire world.

can measure up daily to this exacting standard and yet maintain the balance and stability necessary to the sanity of the nation -THE DAILY NEWSPAPER

The Man on the Flying
Trapeze

flies through the air

•••a dangerous and difficult feat; one calling for speed, daring, clear vision and sureness of a very exceptional order. Day after day he brings a new thrill to thousands of eager onlookers—people of all ages, sex and variety.

Possibly our comparison may seem a little far-fetched but where could be found a more appropriate analogy for the daily newspaper? Difficult obstacles must be and are overcome daily.

SPEED?... Where else could you find another medium so gripping, so intense, so alive, that is published almost hourly? Where else is daring so ably exemplified as here where statements are published, upon which the continued existence of the paper itself depends?

• • THE thoughts and ambitions of our people rely greatly upon the clear vision, foresight and keen judgment of men who formulate the policies of newspapers. In no other medium is the same inherent surety—giving to its advertisers and readers alike that spirit of confidence which marks the most powerful and influential advertising medium of modern life—THE DAILY NEWSPAPER.

"SUCCESS AT ANY PROCE"

Omar the Tentmaker knew.

OMAR certainly knew the value of publicity-wherever his poetry was quoted, people spoke of his tents. Probably they were good tents-they might have been the best procurable-it is also quite likely that people from far-off villages came to buy from him, but-it was eight hundred years before all the world knew of him and his famous pre-prohibition slogar, "A loaf of bread, a jug of-" (person). Eight hundred years after he died, we are all convinced that Omar made tents-not only that, but we have heard so much about them we are convinced they must have been GOOD tents. Were they obtainable today we would probably buy one. However, poor Omar has been gone nearly nine centuries.

OHIS ADVERTISING CAME TOO LATE TO DO HIM ANY GOOD

Isn't it the way? Merchants who have anything to sell, decide to advertise and do so indiscriminately, without enquiring into the merits or demerits of the various media - the greatest mistake a merchandiser can make-and all for the want of five minutes' reasoning - for that is enough to convince any person that the best selling media are those which reach all of the desired market all of the time_THE DAILY NEWSPAPERS.

STORM SEVERE AT TORONTO

Streets Flooded and Cars Out of Commission by Downpour

By the Canadian Free Cue of the most severe electrical storms of the pear sweet an erratic course over Ontario today, ceased and the course over Ontario today, ceased and for a time disrupting Hydro services. Most extendre damage was exuced at Barnis, miner control of the course of surrace with 200 tons of cost. Am sunjoyre was momentarily stunned. Heavy rainfall was recorded Ex Sitchener, with crops being greatly benefitted. No damage was re-ported. Fire Sit his house of Miss. A. Whethan at St. Mary's was be-lieved caused by Lighting, but again crops in the area were halp-ed. 2 3-4 CENT

COUNSEL OBJECTS TO RECOUNT OF BALLOTS

WAS EVER LAVISH HOW YOU CAN OVERCOME ALI YOUR FEARS Ignorance Undoubted Accounts For Great Many Fears By Louis E. Sheh, M.D., Ph.D. Paychelegy, (Copyright 1834, King Features Syndicate, Inc.)

During the burden of the depression the public debt of the various political units in Canada increased, partly because of the public debt of the various pointess.

In Canada increased, partip because of the increased repreditures caused by relief, says the monthly letter of the Alexander Hamilton Insitistic. "Already there are evidences that the crisis has run its course and the tupyrade. Under these circumstances it is generally agreed that a solution of the debt problem can be found only by decreasing expenditures and the course of the proper course."

At the end of 1983 the total of all gov.

At the end of 1983 the total of all gov.

chromotances n. a solution of the debt problem found only by decreasing expenditures and fonce by endeavouring to frother increase and the second of 1983 the total of all governmental borrowings in Canada amount of to the average debt of \$2.600 per function of the provinces at \$11.06 and for the combined municipalities it amounted to \$112.

Garding the second of \$43.97.4 and of the provinces at \$11.06 and for the combined municipalities it amounted to \$112.

Garding the second of \$43.97.4 and of the provinces at \$11.06 and for the combined municipalities it amounted to \$112.

Garding the second of \$12.000 per function of the provinces at \$11.000 per function of the provinces at \$11.000 per function of the combined municipalities it amounted to \$112.

Garding the second of the concept a clear picture, the letter states. "It would have been of practare importance to study the debt and the national home of the country. An increase in the debt, if accountry a hard increase the burden on the citizens. It also might have been of interest to study the relationship country does not of course increase the burden on the citizens. It also might have been of interest to study the relationship country does not of course increase the burden on the citizens. It also might have been of interest to study the relationship country does not of course increase the burden on the citizens in the second of the country to does not of course increase the burden on the citizens in the second of the country to does not of course increase the burden on the citizens in the second of the country does not of course increase the burden on the citizens in the second of the country does not of course increase the burden on the citizens in the second of the country does not of course increase the burden on the citizens in the second of the country does not of course increase the burden of the country does not of course increase the burden of the country does not of course in the burden of the country does not country does not country does not cou

The only way for a rich man to be healthy is by exercise and abstinence, to live as if he were poor.—Sir William Temple.

Life is not to live but to be well.

Charon am I, the Boatman
Who ferries the Stygean stream,
And ever my boat is ready,
And swift as the lightning's beam.

And ever higher flows.

CLEANSING CAMPAIGN

WHO WAS THE MAN IN THE IRON MASK

Who was the man in the iron mask? We must confess ourselves baffled. Historians have given us various theories relative to ancestry . . . Eye witnesses have given us accounts of his stature, habits, mode of apparel, deportment and one hundred and one other details, but-one feature is really significant...NO ONE KNOWS WHO HE WAS.

IF the analogy doesn't seem too far-fetched, may we liken him to the manufacturer who, making a good product, decides it to be so superlative that it will eventually sell itself! He, like our friend in the mask, a doomed to bitter oblivioncharacteristic of men who, through short-sightedness; fail to grasp the one essential fact that business opponents are merciless. They ask no quarter and give none. When you are faced with competition of this kind, take the initiative, market your product FIRST and do it over-night . . . in the DAILY NEWSPAPER.

ONTARIO CAR FERRY

Make the Most of Summer Use the Railways for Touring.

Of course these greets are welcome and their annihors cannot be too greet; but Canadians should themselves share in the pleasures of their own country to the faffiest extent possible:

To enjoy Canada it is not necessary so traverse bandreds of milies. Quint frequently a about railway journey will open up unexpected avenues of happions and beaths at little cost of time and money. Longer erips will neterally provide more decided changes of atmosphere and score and will prove well worth the time and expense

Let us show our visitous that we ourselves appreciate what our country offers so bound-fully. In doing so all business will be atimalested. A vacation tour, or a short trip, can therefore be not only a fource of pleasure to oneself but of distinct advantage to the country.

The railways through their transportation systems, hotels, lodges, and summer reso are very important contributors to the comfort and happiness of the pleans seeker, whether he he the whether less tangeage within one guess or the residence of the contributors. And the residence of the residence

You can wholebearendly recommend the C. N. R. to your friends abroad, and you can not it yourself, forting that in your swarch for pleasure, no less than at other times when in quest of business, it is your swin, dependable, and willing helpen.

SIDELIGHTS

THE MOUNTAIN MAN

THE MOUNTAIN MA
In my young'eyes
He was a seer
Who read the skies
And had no fear
Of anything
On foot or wing.
The clouds, he said,
Were angel ships.
The winds o'erhead
Were whigh'ring lips
Of cherubim.
The birds were
Fellow-souls to him.
The surise bore Fellow-souls to him.
The sunrise bore
Elljah's car;
The sunset wore
A hail of gems.
He said it rained
God's diadems
When far hills flamed
At close of day.
At night he claimed

The base extended that has been expected that the property of the property of

Picnic Preparations

Low prices attract attention but fine quality is the best bargain when it comes to tea.

Fine tea is richly flavoured, clear as crystal and healthful. Common tea is merely an indifferent beverage:

"AM EYE TO THE FUTURE - AN EAR TO THE GROUND"

you know it's going to click

OU'VE probably heard people express You've processy near Motors in just such words as those.

But what they're saying right now is even more emphatic:

"Look at No-Draft Ventilation. Look at Knee-Action Wheels. Look at the way General Motors developed the idea of streamlining and did W in styles that say beauty as well as speed.

OLDSMOBILE

"That's sure calling the turns - and General Motors called all three." The real admirers of General Motors will point in what's back of all this.

They'll tell you that General Motors built the first Proving Ground-in order to experi-

ment at its own expense, not the public's. Then they'll point to the "Proving Ground of Public Opinion" - more than a hundred thousand questionnaire booklets sent out each year, to check General Motors' vast engineering knowledge against what people want in their new cars.

And there you begin to see why people have such confidence in anything that General Motors builds.

We might find it easier, and more dramatic, to trust to "hunch"-rather than put our designs to this constant testing and checking. But we believe the public wants its motor cars, as we want our business, built on a sounder foundation.

NEWSPAPERS

CARRY THE FIRST WORD OF IT TO THE CONSUMER

A Parade of Ceaseless Work

... a sign of triumphant industry marching ahead; truly a thought to make us ponder, but our constantly fulfilled expectations have helped us grow callous to that upon which our daily bread depends! There is life behind it-the unending struggle for existence. An epic in which the whole range of human effort is loosed every day. Allied with it, we have the record of perseverance, high ideals, and a system of co-ordination which have taken generations of progress to perfect.

We have FIRST-the group who force the earth itself to give up its goods. SECONDLY-those who take this material and make, mould or pack it into the form which civilization demands. THIRDLY—the men who transport this merchandise to the widely-located distributing points . . .

AND FINALLY, the one basic medium which carries the news of all these many necessities into the home of the consumer-THE DAILY NEWSPAPER

SPONSORED BY THE CANADIAN DAILY NEWSPAPERS ASSOCIATION

Gift For He

If you buy tea for price alone you must be satisfied with uncertain quality. But if you

choose tea for flavour, richness, freshness - then you will buy Salada and count it worth far more than the small extra cost.

"Hot as

Hades?

I'LL wager everyone has heard these or worse words during these early June days, when I am writing. Here is how I heard them. I have a friend who calls himself a farmer—pedigured stock, etc.,—says "No. not a gentleans farmer," but a farmer, but if ho is a farmer I am the Duke of Demerars. Well, on a sunificiple received to the seem of "farmer" friend. Up the long drive I could see to this "farmer" a minped in a lounge chair upon the wide perchasing the whole seem of the see

above his belt.

As the motae enddenly stopped, his opened his heavy lida, his only sign of life, except to say in a lethangic, dumbering way: "Well, I'll be hainked! What in blank brought you here?" "Why, my good steed Anto and the sunny day inviting to the cole country," which was described by a point of the cole country, "which was described by a point of the sunny day. It is he as park in his cylinder, exploding his pentrup gas. "Sunny day," It is he at sa laces! "Heat was the because his was been and the sunny heptically, mentally and emotional hair to the same and the sunny day. It is he say he was been physically, mentally and emotional haired to be spoken to. But I poke on and on, and creaked jokes at his expense, which have two treating and should be a support of the same and a pelogical, but I cally said "Don't apolegies. II it were not that Providence gave me the good sense to live as I ought instead of according to whim and the foolish feeding habits that an ignorant ancestry which of upon all of us, I'd he just like you." And int it the truth?

"We was this 'wiste'' as there of having a mental and cantional winse, nummed."

of us, I'd he just like you." And isn't it he truth?

Why was this "bird" us shorn of physical, metal and emotional wings, pumped, slumped, dumped, all-in, almost unable to move or think, because the day was hot?

There is only one answer. His living labits, particularly his feeding habits, caused as accumulation of acid and tooic residues in his body, which made his blood "nepy". Copious sveating increased the "reprines" of his blood. It circulated slowly through heart and other vital organs, while increasing the strain upon the heart to pump the ropy blood through the vessels which carry blood to the organs. The body's energy comes from the blood. Less blood, or slower circulation, means less energy, and the all-in, lattless condition in which I found my friend.

als: in, interes continued it was not the teasing of my friend that made him "mad," but the fact that I, almost old crough in years to be his grandfather, could feel so chipper, realiest, happy and comfortable on a bet at day. How account for this difference? Easy, II the blood is pure, sufficiently alkalisme and vitalizing, the body will be upstanding, vital and mentally and physically resilient alway. If it is maddled with all second foreign residues, which it carries as accombering friends to every body cell, how can be body be upstanding when is added the deprecating effects of great heat or cold?

me nour he upstancing viern is socied non oppressing effects of great heat or coldi-flow realize that blood is made from foods and the reason for my resistance to heat and cold becomes manifest, also the reason for my friend's exhaustion on hot days and equal suffering on cold days. 80% of one's food inside numbe ablashife-runing and I effects to this rule. My friend's diff is the conventional one, only 1½% alkali-forming. The acid and toxic residues thus powered into he blood cause his depleted vitality on hot days, also his equal that objectivance to cold, as well as colds and other forms of discusse, while I dely colds and all forms of discuss or language.

whale I dety come non an irorms or dussess at amour (I.

My chief "resistance-building foods on but days are Roman Meal, Beken-Fuildy, and
Lishua, made into porridge and served off the ice with ruitjelly, honey or maple syrue
and cream, and Kofy-Sub, the only alkali-forming grain foods and beverage known.

Try, these and note how well you can resist on hot days. But there are many, other
shall-forming and vitalizing foods, a list of which I shall glading send free, together, with
-chief health Bullclinis, to anyone who requests them, but do not write if nortwally increated in better health. Address Robt. G. Jackson, M.D., '303 Van-Avenue, Croonto.

According to The Times Whithy Beach nust be a gals sort of place with many inds of suits, some of which will, no loubt, fell within the reach of the long rm of Whitby's civic law.

ANCIENT WHEAT SPROUTS
Wheat taken from a tomb in the Orient
has been grown in England though it lay
for the cave for thousands of years. Its
effective after these year to a first finitvane of the average modern wheat. Biblical references to grain production of 'a
hundredfold' now appears not fit be
eggerated, since he can be not yet of the
production of the company of the production of the second of the company of the
hundredfold' now appears not fit be
eggerated, since he can be not yet from England nothing is said of the food value of
this grain.

This may dright the great which nations with a shock to learn that the with a shock to learn that the grain had been developed in prehistoric days to a stage of professionly which a lith d developments do not come in any one land, in each store which a shock to the driven and their ashlavements which remain the markary germon will be interested in the growth of the oriental grain which was developed in a country in which the food question was of parameter in profession graces of a stiff of soft fifth as much as they might of the old Biblical stories should read a story, that of Joseph and his brithers, and their the hope granaries of Egypt. Nothing modern could be read—with its lessons to a modern world.

Minister of National Defence carries or jidde must stop from weakness and excluded a property of the property

"A Grand Way of making Jam"

Have you any jem or jelly making problems? If so, write to the Consumer Service Department, Gen-eral Foods, Ltd., Cobourg,

"I think the Certo way is a grand way of making jam. It is just like fresh fruit. You run no chance of spoiling the flavour through long-boiling."

Mrs. W. G. Shaw, Jam and Jelly Expert, Corbyville, Ont.

DISCOVER for yourself this flavour secre With Certo you can get truly marvellous jams and jellies if you carefully follow the

recipes found in the booklet under the label on every Certo bottle. Certo iii so easy to use and results are certain every time.

Made in Cas

CERTO Is fruit pectia. The natural joliying anistance extracted from

THE ONTARIO INTELLIGENCER

THE KAYE DON CASE

Rays Done has been convicted of man-liaughter in the death of his mechanic-while he was making a test run with his mictorear and was sentenced to four months' imprisonment. He is appealing

the case.

Everyone will sympathies with the British sportsman who is not the usual type of perion charged with manulaughter spising out of motor accidents. His calm and quiet statement that he "obviously" respected the tragedy wins the approval of the world and brings credit to his sinceptive.

of the world and brings evolt to his six-Don the other hand the British law has been uphald and as one editor pot it. Don was not a public figure but an indi-Donbless there will be some differences of view on the case, especially in the so-fine a figure and so noble e man that when the midorium of the acident will swing a great sympathy to him, though the fact the midorium of the acident will swing a great sympathy to him, though the fact law is the law without respect of percent gauses admiration for, that gween which can find impartially.

WORLD'S HIGHWAYS

Over nine million miles of highways is the world aggregate according to a U. S. survay, nearly a third of this being to the United States.

United States. Improved roads of earth, sand and gravel, total about a quarter of the world mileage. Over one hundred and fifty miles of the roadways are however hard surfaced with stone blocks, brick, concrete

surfaced with stone blocks, brick, concrete or bitmen mirtures.

Kingston Whig-Standard has figured but that a man wanting to travel all the but that a man wanting to travel all the eight miles a day at the rate of thirty miles any hour but this speed would be impossible) over most of them. And yet the building of roads for motoring goes forward with leaps and bounds for it is easily that motor transportation is at its beginning that motor transportation is at its beginning.

For the past four or, five years students have been in the cruchle and their reaction to a torn world has doubtlest turned their minds to the true values of first opposed to the reckies infinite as opposed to the reckies infinite as of thought sand ideas the grandiloquerit generate of insincerity and bombast in the deceptive years 1929 is 1881.

Whist I want is, not to possess relief to have a religion that shall person of the Kinguley.

HOLLYHOCK INN

There's honey-with-dew at the Sign of the Rose, There's nectar on tap at the Larkspur as well, and many's the gausy-winged rover that

A NEW THRILL in motoring awaits you when you drive the Ford V-S. Never have you known such speed, power and smoothness in a low-price car. Here is a car you will drive for the sheer joy of driving. Silken power

swers the touch of a toe-the luxurious comfort of an easy chair invites you to lean back and enjoy every minute of the way. Until you drive the Ford, you cannot appreciate the tremendous differ-

nce the V-8 engine makes. It is so much better that there is really no comparison. You can see its superiority on every road as you "Watch The Fords Go By." Figures on public preference and production show that the trend is definitely toward the eight.

THE TREND IS TOWARD THE EIGHT

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Increased use of Railways Means Greater Prosperity for all.

During 1933, the Canadian National Railway System, with its 23,750 miles of track and 4,946 extitons or dapout (386 of which are in the Uniced Status), carried 31,000,000 tons of tright and 9,450,000 passequers. Of the fright, 5,000,000 tons consisted of grain. It paid 76,000 employees \$95,000,000

figures clearly demonstrate the important public service rendered by this system
—service whith continues all the year round under all conditions. In many
cases the CNEA was the only agency available for its performance, and of
course much of the service was of an indispensable nature.

The fidelity of the service provided and its importance are sufficient reasons for Canadians giving the CNR. all the percease possible. There are, however, other indocrements, not the least of which is the fact that the welfare of railways is so indissolably bound up with the prosperity of the consumpthat in using them the whole commandly is being highed to better times.

The C.N.R. is equipped so provide the maximum in comfort, safety and efficiency.

You should use it for all transportation purposes. The present sesson of
the year provides many tempting opportunities for using C.N.R. facilities.

Railways provide special summer fares and excursions. You should enquire

HENLEY REGATTA

WHO WAS THE MAN 1.1 THE IRON MASK

Who was the man in the iron mask? We must confess ourselves baffled. Historians have given us various theories relative to ancestry ... Eye witnesses have given us accounts of his stature, habits, mode of apparel, deportment and one hundred and one other details, but-one feature is really significant...NO ONE KNOWS WHO HE WAS.

IF the analogy doesn't seem too far-fetched, may we liken him to the manufacturer who, making a good product, decides it to be so superlative that it will eventually sell itself! He, like our friend in the mask, is doomed to bitter oblivion characteristic of men who, through short-sightedness, fail to grasp the one essential fact that business opponents are merciless. They ask no quarter and give none. When you are faced with competition of this kind, take the initiative, market your product FIRST and do it over-night . . . in the DAILY NEWSPAPER.

THE CAMADIAN DAILY NEWSPAPERS ASSOCIATION

THE ONTARIO INTELLIGENCER

WAR ON ROAD TRACEDIES

Weekend tragedles horrifled the people of Ontario with a record exceeding any eekend of the year. On highway, in ater, the toll climbed.

Why is th week-end crowd's mond difrent from the mood of any other day? cople should possess their common sens Feople acoust possess there common sense were fit they are free from work and are beat on an outleg. And yet the Saturday and Sanday pursuit of pleasure goes on at an additional pace. To give subrided lib. and they come freedom to danger with the sense of freedom to do danger.

erry to the same of freedom is too dangerens.

While the motive which dominates the the convening a mass motive, this mass in made. And autumn's dead leaves fall covered is a mass motive, this mass in made. And autumn's dead leaves fall covered to the same of the creates and injuries on highway.

The individual drivers of course help to create the influence which gets others into the creates the influence which gets others into the creates the influence which gets others into the creates of the creates.

These tell the take of all. The take of all the same which seems to be at the basis of the creates which seems to be at the creates which seems to be at the seems to be at the creates which seems to be at the creates wh

Everybody Loves a THRILL

Here's a THRILL for THRILL Breakfast

A THRILL indeed—these crisp, curly loved breakfast flavour—the nut-sweet flavour of "Grape-Nuts" Cereal. Get a package for tomorrow's breakfast. And remember, not only does "Grape-Nuts" Flakes beat everything for downright deliciousness, but it is also exceptionally nourishing—because of healthful grains haked by a special process. Your grocer has it. Made in Canada:

LOVE IS A WORD

Love is a word misused sometime For sordid selfishness and crimes Of lust and cruelty and greed, Fair cloak to mask an evil deed; In many a heart, in many a mood Love is a word misunderstood

If you would use love's name aright, Then strive to win the pure delight Which comes to him who can forget The tryanny of self, and let The thought of others' hopes and dreams Crowd out your own self-seaking schemes.

ve ii a word no man should dare To breathe without a thought of prayer, For more of heaven than of earth in mingled in its matchless worth; Its softly whispered utterance can Work magic, like a talisman!

The control of the co

WHO WAS THE MAN IN THE IRON MASK

Who was the man in the iron mask? We must confess ourselves baffled. Historians have given us various theories relative to ancestry ... Eye witnesses have given us accounts of his stature, habits, mode of apparel, deportment and one hundred and one other details, but-one feature is really significant... NO ONE KNOWS WHO HE WAS.

IF the analogy doesn't seem too far-fetched, may we liken him to the manufacturer who, making a good product, decides it to be so superlative that it will eventually sell itself! He, like our friend in the mask, is doomed to bitter oblivion characteristic of men who, through short-sightedness, fail to grasp the one essential fact that business opponents are merciless. They ask no quarter and give none. When you are faced with competition of this kind, take the initiative, market your product FIRST and do it over-night ... in the DAILY NEWSPAPER.

URGED BY VETERANS SUTE

Dr. Frederick A. J. Zeidter, F.O.I.O., Consulting Chemist, Toronto, reports on PERM-O-TECT as follows:

Advice to the Lovelorn By Beatrice Fairfax

They Take Their Flights

STORY BY That The First Place of the First That The First The The First The The First The First The First The The First Th

PERM-O-TECT PERMANENT MOTH-PROOFING

WITH FIVE YEAR INSURANCE POLICY AGAINST MOTH DAMAGE

PERMOTECT needs in the applied only ONCE as PERMOTECT needs in the applied only ONCE as DETROIT does not evaporate and cannot be removed except by boiling.

PERM-O-TECT is harmless to the most delicate fabrics and does not affect the feel of soft woollens, nor the textile strength or appearance of anything.

PERM-O-TECT & a solentific meth-preefing solution electrically applied by compressed air.

PERM-O-TECT 5 a colouriess solution that penetrales the fabric and cannot be removed by sun, air, washing or repeated dry cleaning.

PERM-O-TECT & odourless, colcurisss, stainless and

PERM-O-TECT is not an insecticide. It does not kill the moth; it strikes at the root of the trouble by rendering fabrics insedible to moths so that they starve to death rather than set them.

PERM-O-TECT mothproofs FUR as well as fabric.

PERM-O-TECT has been tested and re-tested by chem-

PERM-O-TECT is fully guaranteed for five years by an Aeina insurance Policy. Things treated, however, are proof against moth damage for the life of the fabric.

OUTSTANDING BY ALL COMPARISONS

By all comparisons the Life Assurance Companies of Canada have stood our magnificently among our Country's splendid financial institutions. From every point of view—security and returns —North American Life is outstanding.

A PUBLIC ENDORSEMENT

The insuring public has placed in seal of definite approval upon this Company and its management with the result that for the first six months of 1934 compared with 1935

NEW ASSURANCES INCREASED BY 25%

DIVIDEND LIBERALITY

For over twenty years, throughout good times and bad, North American Life has maintained in liberal dividend scale without fall—with every dividend being equal to or greater than any previous dividend. The Company's record in this regard is practically unique.

70,000 POLICYHOLDERS SHARE ALL PROFITS

North American Life is A MUTUAL COMPANY, owned, controlled and operated solely for the benefit of its 70,000 policyholders to whom alone the profits of the Company are paid.

ASSURE MUTUALLY in this contetanding Canadian Company and share in the benefits that come to policyholders through sound and steady progress.

MUTUAL, COMPANY

CORN STA

EAVESDROPPING?

Perhaps—

But..

There are certain places - the ball park, the hockey game for instance; or street cars and buses where conversations become eloquent, sometimes forceful, but always semi-public.

These daily gatherings offer a vivid cross-section of the thoughts, ambitions, and ideals of an entire people; and it is only one more step to the questions, "Where are all these opinions created?" "What basic agency can be held responsible for the origination of so great a number of ideas?"

The answer lies in a great unconfined power in which the Canadian public places its faith; an institution in which ideas form an everchanging picture yet maintain a firm grip upon the imagination, the desires, and the buying thoughts of the entire world.

NLY ONE MEDIUM can measure up daily to this exacting standard and yet maintain the balance and stability necessary to the sanity of the nation -THE DAILY NEWSPAPER

READ THE ADS Heep Step With THE TIMES !

This Is The Month

JULY! The month of roses, wedding bells, bridge, commencements and graduates—the month of promise and of high hopes for the future.

JULY, is also the month of gifts second only to December and

The gift problem is always easier when you consult the advertisements in this newspaper. There you will find many helpful suggestions. Things that are worth-while and useful at prices that do not put too great a strain on your pocketbook.

The advertisements are also your guide to the newest things in the market places of the world. There you read first about the new inventions—the new household conveniences—the newest designs in silvery in glassware and in furniture.

Wise is the shopper who reads them carefully and follows the straight road to VALUE and SATISFACTION.
